European Integration And Disintegration East And West:

European Integration and Disintegration Robert Bideleux, Richard Taylor, 1996 This book deals with the principle problems and challenges confronting Europe in the aftermath of the Cold War and the collapse of European communism It concentrates on the changing political economic cultural morphology of Europe The Changing Geopolitics of Eastern Europe Dr A H Dawson, Rick Fawn, 2013-11-05 This work covers the uncertain geopolitical situation of some countries of Central and Eastern Europe including some of those which are hoping to enter the European Union in the near future some for which entry is far off and some which may never seek or be eligible for membership **The Reuniting of Europe** José I. Torreblanca, 2017-09-20 This title was first published in 2001 In 1989 central and Eastern European countries broke free from the Soviet Union and looked upon the European Community to support their return to Europe Some years later leaders of the European Community meeting in Copenhagen in June 1993 endorsed for the first time the membership aspirations of the recently democratized countries of Central and Eastern Europe This insightful text examines the negotiations debates tensions and contradictions behind the process of approximation between the two halves of Europe both within the EC itself as well as between the EC and the countries of Central and Eastern Europe The extensive consultation of unpublished internal documents and a theoretically relevant and well written analysis ensures that this book is an indispensable resource for students and researchers of EC EU relations with Central and Eastern Europe THE HISTORICAL FORMATION OF GERMANY'S EUROPEAN IDENTITY Dr. Melek Aylin Özoflu, 2024-06-17 The European integration process aimed to foster a sense of common European identity enhancing the European public's sense of belonging and identification with the European community This goal is vividly reflected in Jean Monnet's 1952 statement We are not bringing together states we are uniting people In this context forming a collective European identity has emerged as a process in the making boosted often by the symbols of solidarity such as common currency motto flag and anthem This book delves into the historical process of European identity formation in Germany presenting a unique case where its post war national identity was constructed hand in hand with the European identity resulting in relatively higher levels of identification compared to other member states While doing this it leverages the core principles of Social Identity Theory SIT to enlighten the temporal dimensions of identity i.e past present and future reflecting upon the continuity within the Europeanization and EU ization processes This book provides readers with a deeper understanding of the historical foundations of the European identity and its successful blossoming in Germany Its extensive literature review contributes significantly to European studies making it an essential read for scholars and enthusiasts alike *The Oxford Handbook of Postwar European History* Dan Stone, 2012-05-17 The postwar period is no longer current affairs but is becoming the recent past As such it is increasingly attracting the attentions of historians Whilst the Cold War has long been a mainstay of political science and contemporary history recent research approaches postwar Europe in many different ways all of which are represented in the thirty five chapters of this book As

well as diplomatic political institutional economic and social history The Oxford Handbook of Postwar European History contains chapters which approach the past through the lenses of gender espionage art and architecture technology agriculture heritage postcolonialism memory and generational change and shows how the history of postwar Europe can be enriched by looking to disciplines such as anthropology and philosophy The Handbook covers all of Europe with a notable focus on Eastern Europe Including subjects as diverse as the meaning of Europe and European identity southern Europe after dictatorship the cultural meanings of the bomb the 1968 student uprisings immigration Americanization welfare leisure decolonization the Wars of Yugoslav Succession and coming to terms with the Nazi past the essays in this Handbook offer an unparalleled coverage of postwar European history that offers far more than the standard Cold War framework Readers will find self contained state of the art analyses of major subjects each written by an acknowledged expert as well as stimulating and novel approaches to newer topics Combining empirical rigour and adventurous conceptual analysis this Handbook offers in one substantial volume a guide to the numerous ways in which historians are now rewriting the history of postwar Europe

The Politics of East European Area Studies Gareth Dale, Katalin Miklössy, Dieter Segert, 2017-09-13 Following the end of the Cold War and European Union enlargement in what sense does Eastern Europe continue to exist as a meaningful geo political concept In addressing this question contributors to this volume Alex Cistelean Robert Bideleux Katalin Miklössy and Dieter Segert tease out the implications for an Area Studies approach to the region They examine its contradictory situation within discourses of orientalisation on one hand posited as the underdeveloped pendant to its western neighbours on the other largely Christian by religion and an integral part of a continent that dominated the world They uncover the roots of area studies in the colonial paradigm by which great powers promote the creation of predictive problem solving knowledge that is immediately apprehendable for decision makers helping them to

take advantage of a region's resources and strategic position but which tends to homogenise the region's geography and history For critical inquiry they argue the challenge is to delineate transparently the reasons underlying Eastern Europe's construction as an area of study to identify the epistemological interests of motivated organisations such as funding agencies and political bodies and to counter the ongoing orientalism of Western perspectives toward the East This book was originally published as a special issue of the Journal of Contemporary Central and Eastern Europe **Toward a European Nation?**

Max Haller, 2019-10-25 This text presents the work of scholars from all over Europe who examine processes of integration and disintegration at the level of nation states federations regions and Europe overall **Routledge Encyclopedia of**

Daniel Warner, Andre Liebich, Jasna Dragovic, 2012-10-12 First Published in 1995 The outcome of the political transition in Eastern Europe depends not only on the politics pursued but on the understanding of politics in the countries involved A key aspect of such understanding is the notion of citizenship an ancient term of striking contemporary relevance not only in

Eastern Europe but in the West as well What then are the dynamics of citizenship in Europe s new democracies and how do emerging solutions to the question of citizenship there respond to the concerns that the issue of citizenship has raised and continues to raise elsewhere These questions prompted the project which has led to this volume Conceived in 1991 it focussed on Poland Hungary and what was then Czecho Slovakia as countries already grappling with the issue of post communist citizenship

Pushing Back the Boundaries Mike Mannin,1999 Missionary families were an integral component of the missionary enterprise both as active agents on the global religious stage and as a force within the enterprise that shaped understandings and theories of mission itself Taking the family as a legitimate unit of historical analysis in its own right for the first time Missionary families traces changing familial policies and lived realities throughout the nineteenth century and powerfully argues for the importance of an historical understanding of the missionary enterprise informed by the complex interplay between the intimate the personal and the professional By looking at marriage parenting and childhood along with professionalism vocation and domesticity this first in depth study of missionary families reveals their profound importance to the missionary enterprise and concludes that mission history can no longer be written without attention to the personal emotional and intimate aspects of missionary lives

Media and Cultural Policy in the European Union, 2015-06-29 The areas of media and cultural policy offer a unique prism through which to understand wider processes of European integration Questions of European identity citizenship and community or polity building clearly resolve themselves as questions of the non emergence of a European communicative space At the same time as a more specific area of policy study the role which has or may be played by the European institutions themselves in the fostering of such a communicative space raises questions as to both the effectiveness and the legitimacy of their interventions This volume in the European Studies series brings fresh interdisciplinary insight into this relatively understudied area making the case for a renewed look at the trajectory of cultural and media policies in the EU Distinctively the collection offers a historical and socio political analysis of major media policies in the European Union allowing for the contextualisation of recent developments turns its attention to areas largely neglected by scholarly publishing such as the press the culture of the newsroom and the role of media in an enlarged Europe and addresses media and cultural policies as an interrelated part of EU construction through questions of identity and political representation Media and Cultural Policy in the European Union will be of interest to scholars and students of Cultural and Media Studies European Studies and European Integration as well as appealing to broader Social Science audiences concerned with the politics and policy of cultural diversity
