subject matter covered and is recommended for use on audit engagements that are generally smaller in size and have less complex auditing and accounting issues. It is designed to help identify risks including significant risks and document the planned response to those risks. The Audit Risk Assessment Tool should be used as a supplement to a firm's existing planning module, whether in a firm-based or commercially provided methodology. The Audit Risk Assessment Tool is not a complete planning module. The AICPA recommends the Audit Risk Assessment Tool be completed by audit professionals with substantial accounting auditing and specific industry experience and knowledge. For a firm to be successful in improving audit quality and efficiencies, it is recommended that a 5 years experienced auditor completes the Audit Risk Assessment Tool or the engagement team member with the most knowledge of the industry and client often Partner in small medium firms provides insight to whomever is completing the ARA Tool. The AICPA recommends this should not be delegated to lower level staff and just reviewed it should be completed under the direction of the experienced auditor if you delegate to inexperienced auditor you will be at risk for less effectiveness and efficiencies because the tool is intended to be completed by an experienced auditor. The Audit Risk Assessment Tool does not establish standards or preferred practices and is not a substitute for the original authoritative auditing guidance. In applying the auditing guidance included in this Audit Risk Assessment Tool, the auditor should use professional judgment to assess the relevance and appropriateness of such guidance to the circumstances of the audit. This document has not been approved, disapproved, or otherwise acted on by a senior committee of the AICPA. It is provided with the understanding that the staff and publisher are not engaged in rendering legal accounting or other professional service.
