**Current Research and Development in Scientific Documentation** ,1962      **Current Research and Development in Scientific Documentation** National Science Foundation (U.S.). Office of Scientific Information,1962      **Sea-level research: a manual for the collection and evaluation of data** O. van de Plassche,2013-12-20 An editorial by Wanless 1982 entitled Sea level is rising so what tells the case of an executive editor of a major city newspaper who when confronted with evidence for a recent sea level rise replied That just means the ocean is six inches deeper doesn't it Whether his so what attitude was real or put on to dispel a threat of sensation there is at present a wide and deepening interest in ongoing and future global sea level change This interest has grown along with the concern over global warming due to increasing levels of CO<sub>2</sub> and trace gases A stage has been reached where investigators of climate sea level relationships call for long term measurement programmes for ice volume changes using satellite altimetry and changes in temperature and salinity of the oceans thermal expansion This manual however is primarily concerned with sea level changes in the past mainly since the end of the last glaciation Its major objective is to help answer the question how which of course is little else but to assist in the gathering of fuel for the burning question why Good fuel hopefully for the less smoke and ashes and the more heat and light produced by that fire the better scientists are enabled to develop a quantitative understanding of past and hence of future sea level changes on different spatial and temporal scales      **Translations on Sub-Saharan Africa** United States. Joint Publications Research Service,1967      Controlling Malaria in Africa ,1993      **Consolidated Translation Survey** ,1967-04      **African Theology** Emmanuel Martey,2009-11-01 Two major strands of theology have developed in Africa inculturation and liberation each in response to different needs Emmanuel Martey's African Theology provides a clear scholarly examination of these two basic approaches solidly based on Martey's understanding of contemporary theology and his firsthand knowledge of Africa Martey first examines the historical background of each of these theological developments especially relating to cultural and political movements enveloping the continent in the 1970s In sub-Saharan Africa struggles for independence from colonizers have resulted in inculturation theology The defining aspect of this theology is that it pushes its roots firmly in African culture and traditions In South Africa on the other hand Black Africans struggling against the oppressive systems of apartheid have turned to liberation theology Martey shows how the real hope for African theology lies in the dialectical encounter between these two approaches and in their potential for convergence The two foci of liberation and inculturation Martey says are not contradictory but complement each other African Theology concludes by challenging African theologians to weld together the praxis of inculturation with that of liberation in order to achieve an integrative vision for the continent      **History of International Law · Foundations and Principles of International Law · Sources of International Law · Law of Treaties** Sam Stuart,2014-05-12 History of International Law Foundations and Principles of International Law Sources of International Law Law of Treaties      **Public Policy Lessons from the AIDS Response in**

**Africa** Fred Eboko, 2020-10-29 Public Policy Lessons from the AIDS Response in Africa examines how the interplay between national state dynamics in Africa and the global political arena has shaped the global AIDS response and in this context develops a framework for analysing public policy action more broadly in contemporary Africa By applying comparative political sociology to AIDS public action this book identifies four political models that are applicable to public initiatives Fred Eboko goes on to test these in other domains namely the malaria and tuberculosis health subsectors and the education and environment sectors By articulating global and national connections and contributing a critical perspective grounded in African scholarship and French political science the author builds a bold and ambitious framework with the potential to enable coherent and effective public policy action in Africa This book will be of interest to scholars and students of public health global health political science and development studies as well as policy level practitioners in the areas of global health and development      **Sport and International Development** Roger Levermore, Aaron Beacom, 2008-11-27

Investigating the capacity of sport to act both as a conduit for traditional development assistance activities and as an agent for change in its own right this book argues that sport can contribute to the development process particularly where traditional development approaches have difficulty in engaging with communities      **Joint Acquisitions List of Africana**

**Century: A Turbulent History** Catherine Coquery-Vidrovitch, Mary Baker, 2015-02-12 Most histories seek to understand modern Africa as a troubled outcome of nineteenth century European colonialism but that is only a small part of the story In this celebrated book beautifully translated from the French edition the history of Africa in the nineteenth century unfolds from the perspective of Africans themselves rather than the European powers It was above all a time of tremendous internal change on the African continent Great jihads of Muslim conquest and conversion swept over West Africa In the interior warlords competed to control the internal slave trade In the east the sultanate of Zanzibar extended its reach via coastal and interior trade routes In the north Egypt began to modernize while Algeria was colonized In the south a series of forced migrations accelerated spurred by the progression of white settlement Through much of the century African societies assimilated and adapted to the changes generated by these diverse forces In the end the West's technological advantage prevailed and most of Africa fell under European control and lost its independence Yet only by taking into account the rich complexity of this tumultuous past can we fully understand modern Africa from the colonial period to independence and the difficulties of today      Current Catalog National Library of Medicine (U.S.), 1968 Includes subject section name section and

an institutional history the book is a look at the Peace Corps's first fifty years On October 14 1960 at an impromptu speech at the University of Michigan John F Kennedy presented an idea to a crowd of restless students for an organization that would rally American youth in service Though the speech lasted barely three minutes his germ of an idea morphed dramatically into Kennedy's most enduring legacy the Peace Corps From this offhand campaign remark shaped speedily by President Kennedy's brother in law Sargent Shriver in 1961 the organization ascended with remarkable excitement and publicity attracting the attention of thousands of hopeful young Americans The author unpacks the complicated history with sharp analysis and anecdotes taking readers on a global trek starting with the historic first contingent of Volunteers to Ghana on August 30 1961 The Peace Corps has served as an American emblem for world peace and friendship yet few realize that it has sometimes tilted its agenda to meet the demands of the White House Tracing its history through the past nine presidential administrations the author discloses for instance how Lyndon Johnson became furious when Volunteers opposed his invasion of the Dominican Republic he reveals how Richard Nixon literally tried to destroy the Peace Corps and how Ronald Reagan endeavored to make it an instrument of foreign policy in Central America But somehow the ethos of the Peace Corps endured largely due to the perseverance of the 200 000 volunteers themselves whose shared commitment to effect positive global change has been a constant in one of our most complex and valued institutions
