WEEK
28DAY
1**Character and Setting**

Students practice analyzing character and setting by looking at the traits and motivations of a character and where and when a passage's events take place.

Theme

Students practice identifying the theme by looking for the central message or lesson in a passage.

Review the definitions of character and setting with students. Say: A character's traits include not only what the character looks like, but the character's actions, personality, and temperament, as well. The setting is where and when a passage takes place. Tell students they are going to read about a real musician named Louis Armstrong, who was born and raised in New Orleans. Then remind students of the Monitor Comprehension strategy (Week 1). Say: Rereading is a good way to monitor your comprehension and make sure you didn't miss any important information about the characters and setting. As you complete the skill and strategy practice activities, record parts of the passage to make sure your answers are correct. When students have finished reading, direct them to complete creative activities. Review the answers as a group.

WEEK 28
DAY 4**READ THE FOLK TALE**

Look for the lesson or moral in the folk tale.

The Turtle Who Talked Too Much

In India long ago, there was a proud turtle who talked all the time. One afternoon he heard two hunters discussing their plan to catch turtles the next day, and he became very nervous. He thought and thought about how he could save himself.

Then he found two cranes in a nearby pond. He said, "Beautiful birds, you have such graceful wings. And you are so much faster than flesh-fallen snow. Perhaps you would be willing to use your long beaks and feathers to help a friend. Hunters plan to catch me tomorrow. If you will agree to hold a stick between your beaks, I can hold on to it with my teeth. Then you can fly away and carry me to a safe place." The cranes, flattered by the turtle's kind words, agreed to the turtle's plan.

When the hunters came back the next day, the birds took up the stick, and the turtle latched on to it with his mouth. The cranes flapped their wings forcefully, carrying him high into the air, just as the turtle had planned. Some people far below caught sight of the birds flying with the turtle and cried out, "What clever birds they are, to figure out how to carry a turtle!"

When he heard that, the turtle could not help shouting out, "It was my idea!" Of course, as soon as he opened his mouth, he let go of the stick and tumbled to the ground.

SKILL PRACTICE Read the story. Write your response.

1. Why is the turtle afraid?

2. How does the turtle convince the cranes to help him?
