Why are some companies able to generate committed long term customers while others struggle to stay afloat Why do the employees of some organizations fully dedicate themselves while others punch the clock without enthusiasm By studying the ins and outs of companies that enjoy extraordinary loyalty from customers and employees John Jantsch reveals the systematic path to discovering and generating genuine commitment Jantsch's approach is built on three foundational planks which he calls the clarity path the culture patron and the customer promise He draws on his own experiences and shares true stories from businesses like Threadless Evernote and Warby Parker His strategies include these Build your company around a purpose People commit to companies and stories that have a simple straightforward purpose Understand that culture equals brand Build your business as a brand that employees and customers will support Lead by telling great stories You can't attract the right people or get them to commit without telling a story about why you do what you do Treat your staff as your customer A healthy customer community is the natural result of a healthy internal culture Serve customers you respect It's hard to have an authentic relationship with people you don't know like or trust As Jantsch says Have you ever encountered a business where everything felt effortless The experience was perfect and the products people and brand worked together gracefully You made an odd

about finding the intersection between your expertise even if you don't consider it such and what other people will pay for. You don't need an MBA, a business plan, or even employees. All you need is a product or service that springs from what you love to do, anyway, people willing to pay, and a way to get paid. Not content to talk in generalities, Chris tells you exactly how many dollars his group of unexpected entrepreneurs required to get their projects up and running, what these individuals did in the first weeks and months to generate significant cash, some of the key mistakes they made along the way, and the crucial insights that made the business stick. Among Chris's key principles: If you're good at one thing, you're probably good at something else; never teach a man to fish; sell him the fish instead; and in the battle between planning and action, action wins. In ancient times, people who were dissatisfied with their lives dreamed of finding magic lamps, buried treasure, or streets paved with gold. Today, we know that it's up to us to change our lives. And the best part is, if we change our own life, we can help others change theirs. This remarkable book will start you on your way.
