

The background of the cover is a dark, textured surface. It features several overlapping circles of varying sizes. The circles are filled with a complex, web-like pattern of thin, intersecting lines in shades of green, yellow, and blue, resembling a network or a microscopic view of a material. The overall effect is a sense of depth and complexity.

Everyday Information Practices A Social Phenomenological Perspective

Ralph Schroeder

Everyday Information Practices A Social Phenomenological Perspective:

Everyday Information Practices Reijo Savolainen, 2008 In general information practices are viewed as tools that people use to further their everyday projects Essentially information practices draw on personal stocks of knowledge that form the habitual starting point of information seeking use and sharing To judge the value of information available in external sources like newspapers and the Internet people construct information source horizons assigning an order of preference to information sources and information seeking paths such as first check the net then visit the library **Looking for**

Information Lisa M. Given, Donald O. Case, Rebekah Willson, 2023-06-30 This fifth edition is redesigned to reflect the breadth of research across information behaviour studies with a new streamlined six chapter structure presenting a refreshed look at information needs and seeking practices while also embracing contemporary concepts such as information use creation and embodiment **Leveraging Generative Intelligence in Digital Libraries: Towards Human-Machine**

Collaboration Dion H. Goh, Shu-Jiun Chen, Suppawong Tuarob, 2023-11-29 This two volume set LNCS 14457 and LNCS 14458 constitutes the refereed proceedings of the 25th International Conference on Asia Pacific Digital Libraries ICADL 2023 held in Taipei Taiwan during December 4 7 2023 The 15 full 17 short 2 practice papers and 12 poster papers presented in this volume were carefully reviewed and selected from 85 submissions Based on significant contributions the full and short papers have been classified into the following topics include information retrieval knowledge extraction and discovery cultural and scholarly data information seeking and use digital archives and data management design and evaluation of information environments and applications of GAI in digital libraries **Social Informatics** Pnina Fichman, Howard

Rosenbaum, 2014-03-17 Social Informatics Past Present and Future is a collection of twelve papers that provides a state of the art review of 21st century social informatics Two papers review the history of social informatics and show that its intellectual roots can be found in the late 1970s and early 80s and that it emerged in several different locations around the world before it coalesced in the US in the mid 1990s The evolution of social informatics is described under four periods foundational work development and expansion a robust period of coherence and a period of diversification that continues today Five papers provide a view of the breadth and depth of contemporary social informatics demonstrating the diversity of theoretical and methodological approaches that can be used A further five papers explore the future of social informatics and offer provocative and disparate visions of its trajectory ranging from arguments for a new philosophical grounding for social informatics to calls for a social informatics based on practice thinking and materiality This book presents a view of SI that emphasizes the core relationship among people ICT and organizational and social life from a perspective that integrates aspects of social theory and demonstrates clearly that social informatics has never been a more necessary research endeavor than it is now Encyclopedia of Library and Information Sciences John D. McDonald, Michael Levine-Clark, 2017-03-15 The

Encyclopedia of Library and Information Sciences comprising of seven volumes now in its fourth edition compiles the

contributions of major researchers and practitioners and explores the cultural institutions of more than 30 countries This major reference presents over 550 entries extensively reviewed for accuracy in seven print volumes or online The new fourth edition which includes 55 new entries and 60 revised entries continues to reflect the growing convergence among the disciplines that influence information and the cultural record with coverage of the latest topics as well as classic articles of historical and theoretical importance

Activists in the Data Stream Alice Mattoni, Diego Ceccobelli, 2024-05-02 Available Open Access digitally under CC BY ND licence This book pulls back the curtain on the link between activism media and technology in the quiet times of politics when people are not protesting Introducing the novel concept of the data stream it explores the intricate ways in which activists interact daily with various types of data and how they navigate the impact of digitalization and datafication on today's grassroots politics Through rich empirical data from Greece Spain and Italy Activists in the Data

Stream makes a nuanced contribution to our understanding of activists daily political engagement in an ever changing media and political landscape *Practising Information Literacy* Annemaree Lloyd, Sanna Talja, 2010-06-01 This book showcases new interdisciplinary academic research on the relationship between information literacy and learning It combines findings with new understandings drawn from theoretical and empirical research conducted in primary and secondary schools higher education workplaces and community contexts The studies offer new insights into questions such as how transferable are the information practices and skills learned in one context to other contexts What is the degree to which information competences are generic to what degree are they domain and context specific What are the kinds of challenges and outcomes that emerge from incorporating information literacy into education and training courses And most importantly what kinds of theories and philosophies regarding the nature of learning information and knowledge should information literacies education and research efforts be based on **Media Literacy and Media Education Research Methods**

Pierre Fastrez, Normand Landry, 2023-11-27 This handbook interrogates the foundations of media literacy and media education research from a methodological standpoint It provides a detailed illustrated overview of key methods used in the study of media literacy and media education Further it reveals the diversity of this research field and organizes this diversity by using three categories of investigation media practices educational initiatives and prescriptive discourses The book offers valuable reference points and tools for exploring the range of research methods used to study media literacy and media education and how these methods connect to epistemological stances theoretical frameworks and research questions It serves as a guide for researchers who wish to position themselves reflect on the methods they use or are considering using and compare and contrast them against alternative or complementary approaches After reading this book readers will be better able to identify and define the objects of study in media literacy and media education research the preferred ways of conducting investigations the phenomena issues and dimensions that these are likely to bring to light and the knowledge that they generate This comprehensive and up to date overview of the field of media literacy education research methods will be of great interest to scholars and students of education studies media studies media literacy cognitive science and communication studies Chapter 2 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution CC BY 4.0 International license **Social Theory after the**

Internet Ralph Schroeder, 2018-01-04 The internet has fundamentally transformed society in the past 25 years yet existing theories of mass or interpersonal communication do not work well in understanding a digital world Nor has this understanding been helped by disciplinary specialization and a continual focus on the latest innovations Ralph Schroeder takes a longer term view synthesizing perspectives and findings from various social science disciplines in four countries the United States Sweden India and China His comparison highlights among other observations that smartphones are in many respects more important than PC based internet uses *Social Theory after the Internet* focuses on everyday uses and effects of

the internet including information seeking and big data and explains how the internet has gone beyond traditional media in for example enabling Donald Trump and Narendra Modi to come to power Schroeder puts forward a sophisticated theory of the role of the internet and how both technological and social forces shape its significance He provides a sweeping and penetrating study theoretically ambitious and at the same time always empirically grounded The book will be of great interest to students and scholars of digital media and society the internet and politics and the social implications of big data

Dealing With Change Through Information Sculpting Ian Ruthven,2022-07-21 Dealing With Change Through Information Sculpting looks at information behaviour in relationship creation and breakdown parenting starting and ending work developing sexualities becoming ill being a victim of crime and dying to show how our we sculpt information solutions that transform our lives and transform ourselves *New Trends and Challenges in Information Science and Information Seeking Behaviour* Octavia-Luciana Madge,2021-07-16 This book presents a series of recent studies that introduce current topics and novel concepts in the field of information science Among the chapters are discussions of the contribution of information science to society in the dual context of the Fourth Industrial Revolution and Agenda 2030 some negative aspects of information behaviour including criminal activities in the dark web and the hikikomori phenomenon the hot issues of fake news and hate speech from a library and information science perspective gamification in libraries and the new concepts of jamography and disnormative information Intended for information specialists and researchers librarians and library and information science students the book analyses how people use information what their information needs are and how these needs are satisfied in today s digital world The book can also serve as a useful reference for the education and training of students and specialists in library and information services *New Directions in Children's and Adolescents' Information Behavior Research* Dania Bilal,Jamshid Beheshti,2014-09-10 This book comprises innovative research on the information behavior of various age groups It also looks at special populations such as ethnic minorities indigenous peoples and users with disabilities The book presents research and reflections on designing systems that help the new generation cope with a complex knowledge society
