

## OPERATING CONTROLS

### Amber Warning Lamps - Direction Turn Signals and SMV Symbol

Figure 38

**CAUTION:** Stop, look and listen before entering a highway, stay on your side of the road and pull over to let faster traffic pass. Slow down and signal as you turn off.

Your tractor has flashing warning lamps, direction turn signals, tail lamps and slow moving vehicle (SMV) symbol. Make sure to use these items correctly, when operating the tractor on a road, for the safety and protection of the tractor operator and other vehicle operators. The flashing amber warning lamps must be operating when the tractor is operated on a road during the day or night. A vehicle operator that comes near the tractor must see the SMV symbol and tail lamps from the rear and the flashing amber warning lamps from the front and rear.

The SMV emblem must be replaced when the bright orange, center triangle has noticeably faded to a pale orange color. This fading of the orange fluorescent center will occur due to long exposure to sunlight, and reduces daytime identification by approaching vehicle drivers.
