CHEMOTHERAPY HEALS CANCER AND THE WORLD IS FLAT

First allopathy, and then biological therapies?

Why do oncologists know so
little about successful cancer therapies?

Are there real alternatives to chemotherapy?

How can a person help, when everyone says
that there is nothing more that can be done?

Chemotherapy Heals Cancer And The World Is Flat:

The Cancer Odyssey Margaret Brennan Bermel, MBA, 2011-03-10 Chemotherapy is the greatest fraud ever perpetrated upon the American public This statement must reach the public consciousness The Big Pharma FDA complex must be exposed as a cartel colluding not on curing cancer but on generating profits Does chemotherapy work Maybe sometimes with some specific cancers But very often it does not work The best weapon used in the war on cancer traces its genesis to mustard gas The cancer may die but the collateral damage is the patient s life Approximately 600 000 Americans die each year ostensibly from cancer but are they actually dying from treatment A very provocative question Bill Henderson interviews Margaret Bermel about her new book called The Cancer Odyssey Bill says I really enjoyed your book If everyone would read it BEFORE they get the cancer diagnosis and go into fear orbit the millions of unnecessary cancer deaths would end Here is a direct link where you can listen to it or download it plain mp3 audio file http://webtalkradio.net/s/bill_henderson/task_search How to Live Cancer Free The Cancer Odyssey by Margaret Bermel

Education of Cancer Healing Vol. VIII - Martyrs Peter Havasi, [Vital Signs for Cancer Prevention](#) Xandria Williams, 2012-07-31 Vital Signs for Cancer Prevention suggests that cancer is a two phase process In Phase One you do not yet have and may never have cancer but predisposing factors poor diet and digestion toxins adrenal exhaustion and blood sugar imbalances among others can progressively and cumulatively increase your likelihood of developing it Phase Two begins when the first permanent transformed or cancerous cells form and are not destroyed by your defenses Understanding that the predisposing factors of the first phase lead toward the second can help you prevent the onset of cancer by correcting or minimizing those that apply to you Author Xandria Williams takes a natural therapies approach to healing cancer one based on an understanding of nutrition herbal medicine homoeopathy osteopathy and energy medicine rather than one based strictly on medicine drugs and surgery She sees cancer as a problem that affects the whole body not just the organ or system that is faulty and thus her recommendations are systemic rather than aimed specifically at the tumor Her main emphasis is on a series of scientifically validated tests many of which can be self administered she proposes that provide vital information as to the state of your health She also describes the CA profile a test that can indicate the presence of permanent cancer cells within the first six weeks and possibly years before a tumor can be detected allowing a crucial warning and the time to start an effective recovery program Williams suggests a number of supplements specific foods and other remedies detox procedures stress reduction to correct any of the predisposing factors that could with a final trigger move you from Phase One to Phase Two of the cancer process You will learn how to avoid cancer if you have not yet developed it avoid recurrences if you are in remission and overcome cancer if you have been diagnosed with it
