

The background of the entire image is a painting. It depicts a person, possibly a woman, standing on a light-colored, rocky or sandy shore. The person is looking out towards a dark, expansive body of water. The sky above is filled with soft, white and grey clouds, suggesting an overcast day. The overall mood is contemplative and somewhat somber.

## **Cosmogonic Reflections Selected Aphorisms From Ludwig Klages:**

*Cosmogonic Reflections: Selected Aphorisms from Ludwig Klages* Ludwig Klages, 2015-06-15 This book is a selection of aphorisms and reflections excerpted from the voluminous works of the German philosopher and psychologist Ludwig Klages. He was a fierce critic of what he saw as the lack of quality in the modern world which he held to be a product of modern ideas and organised Christianity in our era. For Klages the world is divided between life affirming beliefs that venerate nature and those anti natural forces that promote materialism and rationalism. To overcome these anti life forces Klages wished to return European consciousness back to its pagan roots and renew the link between man and sacred nature. He opposed technocratic rationalism, illusions of progress and democracy which he believed to be antithetical to true culture. His aphorisms defend paganism and a healthy Eros for a renewed future. A pagan metaphysical system would not be philosophy as one understands that word today, i.e. the hair splitting rehashing of such life alien concepts as would be appropriate to the lecture hall, nor would it be characterized by that sort of factitious profundity that seeks to conceal its utter inability to solve the riddles of thought behind a veil of second rate poetic fables. Neither should a genuine pagan metaphysics resemble that which passes for science in the modern world. Before we can discover truths that go to the very roots we must possess a greater fund of inwardness than can be discerned in those thinkers who for at least the last five hundred years have expended their energies exclusively within the realm of reason. p 143

**A Cultural History of the Soul** Kocku von Stuckrad, 2022-02-15 The soul which dominated many intellectual debates at the beginning of the twentieth century has virtually disappeared from the sciences and the humanities. Yet it is everywhere in popular culture, from holistic therapies and new spiritual practices to literature and film, to ecological and political ideologies. Ignored by scholars, it is hiding in plain sight in a plethora of religious, psychological, environmental and scientific movements. This book uncovers the history of the concept of the soul in twentieth century Europe and North America. Beginning in fin de siècle Germany, Kocku von Stuckrad examines a fascination spanning philosophy, the sciences, the arts and the study of religion, as well as occultism and spiritualism, against the backdrop of the emergence of experimental psychology. He then explores how and why the United States witnessed a flowering of ideas about the soul in popular culture and spirituality in the latter half of the century. Von Stuckrad examines an astonishingly wide range of figures and movements ranging from Ernest Renan, Martin Buber and Carl Gustav Jung to the Esalen Institute, deep ecology and revivals of shamanism, animism and paganism to Rachel Carson, Ursula K. Le Guin and the Harry Potter franchise. Revealing how the soul remains central to a culture that is only seemingly secular, this book casts new light on the place of spirituality, religion and metaphysics in Europe and North America today.

**The Myth of Disenchantment** Jason Ananda Josephson Storm, 2017-05-16 A great many theorists have argued that the defining feature of modernity is that people no longer believe in spirits, myths or magic. Jason Josephson Storm argues that as broad cultural history goes, this narrative is wrong, as attempts to suppress magic have failed more often than they have succeeded.

Even the human sciences have been more enchanted than is commonly supposed But that raises the question How did a magical spiritualist mesmerized Europe ever convince itself that it was disenchanted Josephson Storm traces the history of the myth of disenchantment in the births of philosophy anthropology sociology folklore psychoanalysis and religious studies Ironically the myth of mythless modernity formed at the very time that Britain France and Germany were in the midst of occult and spiritualist revivals Indeed Josephson Storm argues these disciplines founding figures were not only aware of but profoundly enmeshed in the occult milieu and it was specifically in response to this burgeoning culture of spirits and magic that they produced notions of a disenchanted world By providing a novel history of the human sciences and their connection to esotericism *The Myth of Disenchantment* dispatches with most widely held accounts of modernity and its break from the premodern past

*Ludwig Klages and the Philosophy of Life* Paul Bishop, 2017-11-20 This book provides a unique overview of and introduction to the work of the German psychologist and philosopher Ludwig Klages 1872 1956 an astonishing figure in the history of German ideas Central to intellectual life in turn of the century Munich he went on to establish a reputation for himself as an original and provocative thinker Nowadays he is often overlooked partly because of the absence of an accessible and authoritative introduction to his thought this volume offers just such a point of entry With an emphasis on applicability and utility Paul Bishop reinvigorates the discourse surrounding Klages providing a neutral and compact account of his intellectual development and his impact on psychology and philosophy Part 1 offers an overview of Klages s life visiting the major stations of his intellectual development Part 2 examines in turn nine major conceptual tools found in Klages s extensive writings aiming to clarify Klages s terminology to demystify his discourse and to sift through Klages s credentials as a psychological thinker Part 3 consists of extracts from Klages s writings thematically oriented these showcase the aphoristic and lyrical as well as psychological and philosophical qualities of Klages s writing including his interest in aesthetics Taken together all three parts constitute a vitalist toolkit to build a fuller richer life Drawing on previous studies of Klages that have only been available in German *Ludwig Klages and the Philosophy of Life* provides a non polemical account of Klages s life and work with explanations and commentaries to guide the reader through extracts from his writings The book accessibly explains the most important ideas and concepts found in Klages s work including soul spirit character expression will and consciousness and it reveals Klages to be a serious figure whose thought remains relevant to many disciplines today It will stimulate interest in his work and create a new readership for his remarkable worldview

**Eco-Deconstruction** Philippe Lynes, David Wood, 2018-03-27 Eco Deconstruction marks a new approach to the degradation of the natural environment including habitat loss species extinction and climate change While the work of French philosopher Jacques Derrida 1930 2004 with its relentless interrogation of the anthropocentric metaphysics of presence has already proven highly influential in posthumanism and animal studies the present volume drawing on published and unpublished work by Derrida and others builds on these insights to address the most pressing environmental issues of

our time The volume brings together fifteen prominent scholars from a wide variety of related fields including eco phenomenology eco hermeneutics new materialism posthumanism animal studies vegetal philosophy science and technology studies environmental humanities eco criticism earth art and aesthetics and analytic environmental ethics Overall eco deconstruction offers an account of differential relationality explored in a non totalizable ecological context that addresses our times in both an ontological and a normative register The book is divided into four sections Diagnosing the Present suggests that our times are marked by a facile flattened out understanding of time and thus in need of deconstructive dispositions Ecologies mobilizes the spectral ontology of deconstruction to argue for an originary environmentality the constitutive ecological embeddedness of mortal life Nuclear and Other Biodegradabilities examines remains including such by products and disintegrations of human culture as nuclear waste environmental destruction and species extinctions Environmental Ethics seeks to uncover a demand for justice including human responsibility for suffering beings that emerges precisely as a response to original differentiation and the mortality and unmasterable alterity it installs in living beings As such the book will resonate with readers not only of philosophy but across the humanities and the social and natural sciences

*A Traditionalist Confronts Fascism* Julius Evola, 2015-09-17 This volume a companion to Evola s *Fascism Viewed from the Right* and *Notes on the Third Reich* contains many of his occasional essays on the topic of fascism as understood from a traditionalist perspective which were written between 1930 and 1971 thus comprising both his contemporary and post war assessments of the fascist phenomenon Here we find Evola s views not only on Italian Fascism and German Nazism but also his discussions of other movements such as the Spanish Falange and the Japanese Imperial ideal as well as his commentary on such diverse subjects as Nazi esotericism the idea of a new spiritual Order to lead Europe and the reasons for his rejection of Nazi biological racism Also included are interviews Evola personally conducted with Corneliu Codreanu the leader of the Iron Guard and Count Coudenhove Kalergi the founder of the Pan European Movement the forerunner of the European Union and the full text of *Orientations* the famous essay Evola wrote in 1950 concerning the proper approach of the European Right in the post war era which he further developed in *Men Among the Ruins* These essays show Evola to have been an unsparing critic of fascism always urging traditionalists to aspire for something higher than the merely political **The Shock of**

**History: Religion, Memory, Identity** Dominique Venner, 2015-08-06 The shock of history we live it neither knowing or comprehending it France Europe and the world have entered into a new era of thought attitudes and powers This shock of history makes clear the fact that there is no such thing as an insurmountable destiny The time will come for Europe to awaken to respond to the challenges of immigration toxic ideologies the perils of globalism and the confusion that assails her But under what conditions That is the question to which this book responds Conceived in the form of a lively and dynamic interview with a historian who after taking part in history himself never ceased to study and reflect upon it In this text the first of his major works to appear in English Dominique Venner recounts the great movements of European history the origin

of its thought and its tragedies He proposes new paths and offers powerful examples to ward off decadence and to understand the history in which we are immersed and in which we lead our lives *Body and Force in Music* Youn Kim, 2022-09-01 Our understanding of music is inherently metaphorical and metaphoricity pervades all sorts of musical discourses be they theoretical analytical philosophical pedagogical or even scientific The notions of body and force are the two most pervasive and comprehensive scientific metaphors in musical discourse Throughout various intertwined contexts in history the body force pair manifests multiple layers of ideological frameworks and permits the conceptualization of music in a variety of ways Youn Kim investigates these concepts of body and force in the emerging field of music psychology in the late nineteenth and early twentieth centuries The field s discursive space spans diverse contexts including psychological theories of auditory perception and cognition pedagogical theories on the performer s bodily mechanism speculative and practical theories of musical rhythm and aesthetical discussion of the power of music This investigation of body and force aims to illuminate not just the past scene of music psychology but also the notions of music that are being constructed at present *IX.
