Multicultural Counseling Competencies is a state-of-the-art book integrating the literature and work on multicultural counseling competencies. It draws out implications for individual professional and institutional development by identifying the characteristics related to culturally competent mental health care. As such, it has relevance for practitioners who will increasingly encounter client populations who differ from them in terms of race, culture, and ethnicity; it suggests how the mental health profession needs to alter its practices to fit the needs of the culturally different in our society and advocates changes in mental health policy, programs, and organization. In a very systematic manner, the text provides a working definition of multiculturalism from which counselors, therapists, and social workers can ground their awareness, knowledge, and skills. It presents a new concept called ethnocentric monoculturalism and traces how it has inundated our society and the mental health professions. Written by leaders in the field of multicultural counseling, **Multicultural Counseling Competencies** is a landmark volume in clinical and counseling psychology, educational psychology, gender studies, nursing, social work, psychology, health services, interpersonal violence, and ethnic studies.

Handbook of Multicultural Counseling Joseph G. Ponterotto, 2001-04-25

This Second Edition of the *Handbook of Multicultural Counseling* marks an important turning point. It brings together the voices of some pioneers who have paved the way and introduces us to new voices who, while influenced by the pioneers, have taken different paths. Because the multicultural community is well represented in content and scholarship in this second addition, the reader can be assured that the viewpoints represented in this book speak to the core issues of the field. I am excited about this *Handbook* because the authors answer the question that is often heard at many a conference: Where is the research to support multicultural counseling? I am equally excited about this *Handbook* because it breaks new ground by using as its anchor oral histories, which demonstrate that for many of us, multicultural counseling is not simply a research agenda but a life-long journey that cannot always be measured. The underlying theme of social justice only reinforces our commitment to this journey. Drs. Ponterotto, Casas, Suzuki, and Alexander have once again helped shape the multicultural conversation. To those who have often said, "Where is the research?" look no further. Donald B. Pope-Davis, University of Notre Dame.

Its First Edition set a standard for a then-emerging field. Now, *The Handbook of Multicultural Counseling*, Second Edition, presents not merely an update of the original but a completely reconceived work reflecting the many developments that continue to expand the field of multicultural counseling. This new edition features mostly brand-new chapters and expanded coverage of historical perspectives on the field, highlighted by personal accounts from some of the pioneers in the area: professional and ethical issues, counseling's role in fighting oppression, psychological measurement theories, research design, gender issues, and

higher education issues With contributions once again from the field's key leaders as well as top emerging scholars this new edition maintains the breadth and comprehensiveness of the original The Handbook of Multicultural Counseling Second Edition is a critical resource for counsellors counselling students and other mental health professionals who seek to improve their competence in treating a culturally diverse clientele
