**A Parents' Guide to Great Grand-Partnering** Diana Miller, Paul Miller, 2021-08-13 As a parent you might ask Where can I find a helpful book on grandparenting because your kids grandparents seem to want to do only fun things with their grandchildren give them lots of candy and gifts let them break all your rules and then send them home to you sugared up and spoiled rotten In addition you know they have lots of experience and wisdom that could be useful to you as learn how to be a better parent If you feel like this or if you're an expectant parent who wants to avoid these issues Paul and Diana Miller have some new good ideas for you in their faith based book A Parents Guide to Great Grand Partnering This book is unique because it challenges parents to harvest the grandparents wisdom for their family's benefit while also establishing boundaries to prevent interference and undermining Specifically Paul and Diana will help you understand that grandparents can have a profound effect for good or bad on your children's future It's also true their decisions will make your job easier or much harder Further parents and grandparents can come together to reap the bonus of enjoying a mature adult to adult relationship with each other The Millers key concept is the Family Trinity framework for building and keeping healthy and enjoyable relationships between all three generations The Trinity shows that the parents are totally responsible for not merely providing for their children but also teaching them essential values and tools for becoming productive and fulfilled adults It also shows that grandparents are responsible for helping the parents raise their children without getting in their way To gain these benefits the book explains why parents need to embrace their own adult level independence Likewise grandparents should release the parents to be fully independent adults Once these attitudes are established the parents are free to allow the grandparents to coach them without having to comply with their advice In addition parents can encourage the grandparents to be good models for the grandchildren and otherwise reinforce the lessons and skills they are teaching them Endorsements Very few lay out the multi generational responsibilities in a family and even fewer do it from a Christian perspective Paul and Diana Miller have now brought their previous unique observations and guidance to parents who want to help their families grandparents be more intentional and effective Moms and Dads who read this book will say I wish I had been aware of these ideas before now because it conveys a lot of wonderful wise practical counsel for multi generational families I promise you that it will do wonders for your family's relationships Larry Fowler The Legacy Coalition Paul and Diana are themselves experienced grandparents and faithful guides who have written this practical book to help parents develop stronger adult to adult relationships with their own parents Pick up your
