Not All Twins Are Alike Barbara Klein,2003-02-28 Even twins are unique Most people idealize twins fantasizing a close perpetually loving relationship Yet Klein herself an identical twin demonstrates that twins have complicated and intense relationships that range from over identification or excessive closeness to profound estrangement and conflict Most twins who are raised as individuals deal with the significant emotional pain of separation in adolescence or young adulthood yet as mature adults can come to love and respect each other as individuals As Klein makes clear the parenting that twins receive as infants and young children affects the relationships that they have with one another and with the world they choose to function in Because parenting is a critical determinant of psychological well being it should be treated as a serious but manageable challenge This book is a must read for twins their parents and scholars students and other researchers and professionals dealing with mental health and child development **In The Shadow of The Past** Pasquale De

Victoria's Story - A Work in Process Victoria Tassone-Amato, 2024-05-16 After a very strict upbringing Vittoria Vicki Vittoria struggles to fit in the more modern society of their new Country to which her immigrant parents brought her It is a story as seen and experienced initially by a 5 year old from the time she leaves her birthplace her long sea voyage to Australia the restrictive cultural rules she had to adhere to whilst in her inner society and the lengths she had to go to in order to give the appearance that she was just like the other

girls in the outer society It is a story of the ever present anxiety of her double life being found out the ever present fears of embarrassment if her outer society friends were to find out how stuck her family was in their old country s cultural ideas and beliefs and her naivety to believe that if she let her guard down she would be met with disbelief and ridicule only to later discover that Australia was made up of New Australians It is a story of the dating challenges faced by a young female growing up in such a restrictive household and the calculated risks she took sometimes with her co conspirators in order to get her parents permission to go out with her friends It is a story of learning from her parents to appreciate and be thankful for what she had and that her trait of having compassion for others was only possible because of the love and family values that were instilled in her It is a story of the human spirit s great capacity to heal the disappointments hurt and betrayal which in turn enables one to forgive Of the strong faith one needs to possess in order to accept the physical and emotional pain with which one is afflicted in life And of the great strength with which one is graced in order to cope when in such pain But mostly it is a story of the comradery which existed between the families during that era They relied on and helped one another with everything They laughed cried and shared with one another There was a sense of belonging closeness and security that seems to be missing in the lives of so many of our young people today

Christianity in India
Robert Eric Frykenberg, 2008-06-27 Robert Frykenberg's insightful study explores and enhances historical understandings of Christian communities, cultures, and institutions within the Indian world from their beginnings down to the present. As one out of several manifestations of a newly emerging World Christianity in which Christians of a Post Christian West are a minority, it has focused upon those trans-cultural interactions within Hindu and Muslim environments which have made Christians in this part of the world distinctive. It seeks to uncover various complexities in the proliferation of Christianity in its many forms and to examine processes by which Christian elements intermingled with indigenous cultures and which resulted in multiple identities and also left imprints upon various cultures of India. Thomas Christians believe that the Apostle Thomas came to India in 52 A.D.C.E. and that he left seven congregations to carry on the Mission of bringing the Gospel to India. In our day the impulse of this Mission is more alive than ever. Catholics in three hierarchies have become most numerous and various. Evangelicals, Protestant communities constitute the third great tradition. With the rise of Pentecostalism, a fourth great wave of Christian expansion in India has occurred. Starting with movements that began a century ago, there are now ten to fifteen times more missionaries than ever before, virtually all of them Indian. Needless to say, Christianity in India is profoundly Indian, and Frykenberg provides a fascinating guide to its unique history and practice.
