

EXTRA EQUIPMENT AND ACCESSORIES

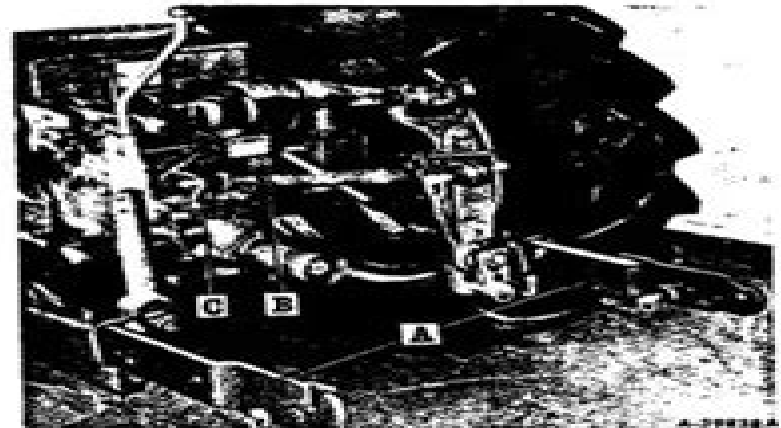

Three-Point Adapters

A three-point implement adapter allows three-point implements and equipment to be used with the International 300 Utility Tractor Fast-Hitch. It consists of two separate coupling beams that snap-into the Fast-Hitch sockets. The rear ends have coupling and locking means for the lower connecting points on three-point implements. The left hand coupling beam is adjustable vertically at the rear to provide additional tilting and leveling. The same adjustable depth control link used for the U-F20 and U-F30 Plows is also used to connect the top point of three-point implements to the depth control unit on the Fast-Hitch rockshaft. As a result, the depth or pitch of three-point implements is Hydra-Touch controlled. To avoid duplication, the depth control link is not furnished with the three-point adapter. See *Illustr. 92*.

A second three-point adapter is also available. It consists of the coupling beams described above, the adjustable depth control link and a fixed pivot bracket for the adjustable link which bolts to the final drive case immediately above the power take off mounting. This adapter is for use with certain three-point special duty equipment which does not require hydraulic control of the upper link. See *Illustr. 92A*.

Illustr. 92

Fixed Drawbar (Quick Attachable) (Tractors without Fast-Hitch)

A fixed quick attachable drawbar is available for tractors not equipped with Fast-Hitch. The tractor exerts its pulling power on pull-behind implements by means of the drawbar which is adjustable up and down to accommodate different hitches. Proper hitching will save both the tractor and the implement it is pulling from undue strains. Refer to page 15 for further instructions.

Swinging Drawbar

A swinging drawbar attachment is available for tractors equipped with a fixed drawbar. This type of drawbar permits shorter turns when pulling trailing implements and makes tractor operating easier, especially when working in small or irregular fields. Hitch point of this swinging drawbar conforms to standardized drawbar and power take-off dimensions.

For further information, see page 17 and *Illustr. 32D*.
