

Counseling Session Transcription: Kenry Lambert Case

✓ Exclusively available on IvyPanda

Evaluation and assessment of individuals' behavior are critical to help them to evolve in an appropriate way and acquire the social skills needed to remain integrated with society and cooperate with peers. To determine the existing problems and find appropriate ways to solve them, a counselor, as a specialist responsible for the in-depth assessment of persons' cognitive, developmental, and communicational skills, should devote special attention to unusual behaviors, inappropriate or undesired patterns, or other threatening signs.

For this reason, counseling sessions become a potent tool that can be used to communicate with a client and determine his/her current problems using strategic approaches and specific skills demanded for the critical analysis.

The given paper presents a transcription of a counseling session with Kenry Lambert, a 7th-grade student. He is Cuban American, Catholic. He grows up in a nice family that does not have signs of violent behaviors or other inappropriate patterns. He has a younger sister and a caring mom. The addressed problem is the boy does not want to share the ball at the gym and plays by himself. Last Friday he had a fight with his best friend Mike because of the ball. Kenry punched the friend on his face. It shows the existence of anger issues.

The given transcription outlines communication between the counselor (C) and the student (S). The dialogue between the specialist and the boy is presented in detail because of the necessity to understand utilized techniques and make a conclusion about the existing problems and the further need for actions.
