Countering Al Qaeda In London:

Communities and Counterterrorism Basia Spalek, Douglas Weeks, 2020-06-29 This book highlights a wide range of community related counterterrorism initiatives undertaken in England Northern Ireland and Australia The book continues established scholarship in terrorism studies about the importance of considering communities when understanding responding to and preventing politically religiously and other ideologically motivated violence Terrorists are in competition with communities and sociopolitical religious movements for proactive and passive support for their causes membership and resources The book is particularly relevant in the aftermath of a series of jihadist terror attacks alongside terror acts committed by far right extremists There has been an increased emphasis upon the role of communities in combatting terrorism with Communities can defeat terrorism becoming a well known mantra This book was originally published as a special issue of Studies in Conflict Terrorism

Countering Extremism Rohan Gunaratna, Jolene Jerard, Salim Mohamed Nasir, 2013 This unique work is the first to address the subject of community engagement strategies in countering extremism and explores the development and research of these strategies In so doing it demystifies the process of community engagement while simultaneously extolling the virtues of the ground breaking strategies to have been effectively employed in Asia the Middle East and the West The book then proceeds to examine the efforts of community engagement made by several countries against their unique operational and geopolitical environments Finally detailed reference is made to the role and work of the media and non government organizations to have conducted effective community engagement efforts With contributions from authors of diverse backgrounds including media the social services security and academia this book will be of interest to both the general public and to researchers

Countering Al-Qaeda in London Robert Lambert, 2013 Robert Lambert recounts the remarkable story of two peaceful pioneering projects to reduce Al Qaeda inspired terrorism in a major Western city By partnering Muslim community groups with police forces in London one project empowered Muslims to exile the Egyptian Sunni activist Abu Hamza and his violent hard core supporters from Finsbury Park Mosque in North London The other bolstered long standing efforts by Brixton's Muslim community to challenge and diminish the influence of the violent extremists among them notably the radical clerics Abu Qatada and Abdullah el Faisal These antiextremist projects set important paradigms for future community based counterterrorism efforts proving the involvement of centralized government is often less effective than direct localized action especially during times of war Lambert explains how channeling genuine and reasonable Muslim grievance about Western foreign policy in ways that are familiar and acceptable to western audiences and anathema to Al Qaeda can create unparalleled outcomes throughout the world

The United Kingdom's Strategy for Countering International Terrorism Home Office, 2009 This document sets out the United Kingdom's strategy known as CONTEST for countering the threat from international terrorism The aim of CONTEST is to reduce the risk to the United Kingdom UK and its interests overseas from international terrorism so that people can go about

their lives freely and with confidence This is a revised and more detailed version of the strategy contained in The national security strategy of the United Kingdom Cm 7291 2008 ISBN 9780101729123 The first part sets the context with a brief history of the changing threat to the United Kingdom and to UK interests overseas from international terrorism examines the present threat the factors which are shaping it and the assumptions about how it may develop The second part sets out the principles which will govern the strategy including a commitment to human rights and the rule of law recognition of the need to address the causes as well as the symptoms of terrorism and the need to co operate with other countries The four main streams of the CONTEST strategy are 1 pursue to stop terrorist attacks 2 prevent to stop people becoming terrorists or supporting violent extremism 3 protect to strengthen our protection against terrorist attack 4 prepare where an attack cannot be stopped to mitigate its impact The third part of the document outlines who will deliver the strategy and how its impact will be measured The document concludes with a section explaining the importance of communications as a part of the counter terrorism strategy

Counter-Terrorism B. Spalek, 2012-05-29 This book examines community based approaches to counter terrorism through an analysis of the notions of community partnership engagement gender and religion in order to shed new light on the potential of and drawbacks to these approaches Dr Spalek stresses the need for policy makers and practitioners to reflect on the effectiveness of the initiatives that they are engaged with particularly in relation to how community targeted or community focused they are

Al Muhajiroun Douglas Weeks, 2020-03-27 Grounded in nine years of ethnographic research on the al Muhajiroun Ahlus Sunnah Wal Jamaah movement ALM ASWJ Douglas Weeks mixes ethnography and traditional research methods to tell the complete story of al Muhajiroun Beginning with three core events that became a primer for radical Islamic political thought in the UK Al Muhajiroun A Case Study in Islamic Activism traces the development of the movement from its incipient beginnings to its current status Based on his extensive interaction with the group and its leaders Weeks contextualizes the history beliefs methods and differences between ALM ASWJ al Qaeda and the Islamic State so that the group and the threat it poses is comprehensively understood

Jihadi Terrorism and the Radicalisation Challenge Rik Coolsaet, 2016-05-06 Osama bin Laden's demise in May 2011 marked only the symbolic end of an era By the time of his killing he no longer represented the Robin Hood icon that once stirred global fascination Ten years after the 11 September 2001 attacks jihadi terrorism has largely lost its juggernaut luster It now mostly resembles a patchwork of self radicalising local groups with international contacts but without any central organisational design akin to the radical left terrorism of the 1970s and the anarchist fin de siècle terrorism This volume addresses two issues that remain largely unexplored in contemporary terrorism studies It rehabilitates the historical and comparative analysis as a way to grasp the essence of terrorism including its jihadi strand Crucial similarities with earlier forms of radicalisation and terrorism abound and differences appear generally not fundamental Likewise the very concept of radicalisation is seldom questioned anymore Nevertheless it often lacks conceptual clarity and empirical validation Once

considered a quintessential European phenomenon the United States too experiences how some of its own citizens radicalise into terrorist violence This collective work compares radicalisation in both continents and the strategies aimed at de radicalisation But it also assesses if the concept merits its reputation as the holy grail of terrorism studies The volume is aimed at an audience of decision makers law enforcement officials academia and think tanks by its combination of novel thinking practical experience and a theoretical approach *Counter-Terrorism Community Engagement* Jason Hartley, 2021-04-19 This book offers insights into the building of trust in Muslim communities through community engagement in a climate of counter terrorism Police engagement with Muslim communities is complex with a history of distrust This book first attempts to understand the role and implications of uncertainty on community engagement in Muslim communities and then explores the cultural nuances associated with the demonstration of trustworthiness and decisions to bestow trust It further highlights the complexities and implications for Muslim leaders when trying to simultaneously engage police and appease their own communities the book exposes community perceptions of an over reaction by authorities that has moved suspicion from a handful of terrorists to the entire Muslim community resulting in problematic community perceptions that Muslim communities are being targeted by police The findings suggest that the intentionality of police is a highly significant consideration in trust negotiations and reveals a number of cultural preferences considered critical to trust negotiations The book further highlights opportunities to enhance the development of trust and avoid pitfalls that can be problematic to community engagement The lessons learned seek to enhance the existing body of literature regarding strategies and resources to improve counter terrorism community engagement with Muslim communities This book will be of much interest to students of counter terrorism preventing violent extremism deradicalization and security studies

Counter-Radicalisation Christopher Baker-Beall, Charlotte Heath-Kelly, Lee Jarvis, 2014-09-15 This book offers a wide ranging and critical examination of recent counter radicalisation policies using case studies from several countries Counter radicalisation policies such as the UK Prevent strategy have been highly controversial and increasingly criticised since their introduction In this edited volume voices from disciplines including sociology political science criminology and International Relations are brought together to address issues across the global roll out of counter radicalisation agendas In so doing the book critically interrogates i the connections between counter radicalisation and other governmental programmes and priorities relating to integration and community cohesion ii the questionable dependence of counter radicalisation initiatives on discourses and assumptions about race risk and vulnerability to extremism and iii the limitations of existing counter radicalisation machineries for addressing relatively new types of extremism including amongst right wing activists Through examining these questions the book draws on a range of contemporary case studies spanning from counter radicalisation in the UK Germany and Denmark through to detailed analyses of specific preventative initiatives in Australia and the United States Conceptually the chapters engage with a range of critical approaches including discourse theory autoethnography and

governmentality This book will be of much interest to students of radicalisation critical terrorism studies counter terrorism sociology security studies and IR in general The Muslim Brotherhood and the West Martyn Frampton, 2018-02-19 The Muslim Brotherhood and the West is the first comprehensive history of the relationship between the world's largest Islamist movement and the Western powers that have dominated the Middle East for the past century Britain and the United States In the decades since the Brotherhood emerged in Egypt in the 1920s the movement's notion of the West has remained central to its worldview and a key driver of its behavior From its founding the Brotherhood stood opposed to the British Empire and Western cultural influence more broadly As British power gave way to American the Brotherhood's leaders committed to a vision of more authentic Islamic societies oscillated between anxiety or paranoia about the West and the need to engage with it Western officials for their part struggled to understand the Brotherhood unsure whether to shun the movement as one of dangerous fanatics or to embrace it as a moderate and inevitable part of the region's political scene Too often diplomats failed to view the movement on its own terms preferring to impose their own external agendas and obsessions Martyn Frampton reveals the history of this complex and charged relationship down to the eve of the Arab Spring Drawing on extensive archival research in London and Washington and the Brotherhood's writings in Arabic and English he provides the most authoritative assessment to date of a relationship that is both vital in itself and crucial to navigating one of the world's most turbulent regions U.S. Strategy Against Global Terrorism A. Tan, 2009-11-09 This book examines the various strategies including Global Counterinsurgency GCOIN which have been put forward as alternatives to the Global War On Terror GWOT concluding that while a consensus can be found on the key elements of a grand strategy based on failures in the GWOT it is far from clear if any GCOIN strategy could work **Human Factors in Effective Counter-Terrorism** Richard Warnes, 2024-02-29 This book seeks to provide a comparative assessment of the significance of human factors in effective counter terrorism The phrase human factors is used to describe personal relationships individual capabilities effective leadership technical interface organisational culture and the community engagement necessary to effectively minimise counter and control the threat of terrorism Unlike many works in the field this book is constructed around the input of experienced knowledge from over 170 semi structured interviews of specialist military policing intelligence and security practitioners those actors actually involved in countering terrorism These practitioners come from seven countries the United Kingdom Ireland France Spain Israel Turkey and the United States all of which have suffered over the years from different types of terrorist threat and responded with a mixture of counter terrorist measures Where military practitioners also discussed overseas counter insurgency measures that material has been included since terrorism forms a key aspect of such wider insurgencies The resulting interview data was analysed through a variant of Grounded Theory to identify key emerging themes and issues both positive and negative relevant to human factors in the individual countries and more generically This book incorporates the informed operational experiences and insights of the interviewees while seeking to provide examples

of successful counter terrorist measures at the strategic operational and tactical levels This book will be of much interest to students of counter terrorism defence studies and security studies in general *British Propaganda and Wars of Empire* Christopher Tuck, 2016-04-15 Influence is a slippery concept yet one of tremendous relevance for those wishing to understand global politics From debates on the changing sources of power in the international system through to analyses of its value as an alternative to the active use of force as a policy instrument influence has become a recurrent theme in discussions of international relations and foreign policy In order to provide a better understanding of the multifaceted and shifting nature of influence this volume looks at how the British government employed various forms of pressure and persuasion to achieve its goals across the twentieth century By focusing on Britain a global actor with great power objectives but declining physical means the collection provides a wide range of case studies to assess how influence was brought to bear on a wide array of non western cultures and societies It furthermore allows for an assessment of just how effective or ineffective British efforts were at influencing non Western targets over a hundred years of operations By shedding important light on the efficacy of British efforts to sustain and advance its interests in the twentieth century the volume will be of interest not only to historians but to anyone interested in contemporary problems surrounding the operation of influence as a foreign policy tool **The Oxford Handbook of European Islam** Jocelyne Cesari, 2015 For centuries Muslim countries and Europe have engaged one another through theological dialogues diplomatic missions political rivalries and power struggles In the last thirty years due in large part to globalization and migration from Islamic countries to the West what was previously an engagement across national and cultural boundaries has increasingly become an internalized encounter within Europe itself Questions of the Hijab in schools freedom of expression in the wake of the Danish Cartoon crisis and the role of Shari'a have come to the forefront of contemporary European discourse The Oxford Handbook of European Islam is the first collection to present a comprehensive approach to the multiple and changing ways Islam has been studied across European countries Parts one to three address the state of knowledge of Islam and Muslims within a selection of European countries while presenting a critical view of the most up to date data specific to each country These chapters analyze the immigration cycles and policies related to the presence of Muslims tackling issues such as discrimination post colonial identity adaptation and assimilation The thematic chapters in parts four and five examine secularism radicalization Shari'a Hijab and Islamophobia with the goal of synthesizing different national discussion into a more comparative theoretical framework The Handbook attempts to balance cutting edge assessment with the knowledge that the content itself will eventually be superseded by events Featuring eighteen newly commissioned essays by noted scholars in the field this volume will provide an excellent resource for students and scholars interested in European Studies immigration Islamic studies and the sociology of religion [The Ashgate Research Companion to Political Violence](#) Marie Breen-Smyth, 2016-03-23 Aimed at scholars students and lay persons interested in peace and conflict studies The Ashgate Research Companion to Political Violence is a

comprehensive resource to understand the principal debates on political violence a field which is becoming an increasingly important part of courses on peace and conflict Organized into seven main sections this volume deals with a wide range of issues covering the following important research areas Issues of definition and nomenclature and how contests over these relate to political violence Theoretical frameworks and methods for understanding and researching political violence Motivations and goals of those who use political violence The various forms of political violence Perspectives on countering political violence by state and non state actors Why and how political violence ends The aftermath of political violence Contributions by leading scholars in the field provide an authoritative guide and source book on political violence for the scholar the researcher and the informed general reader *Terror Crime Prevention with Communities* Basia
